Statement on the REACH Regulation

January 7, 2026

Dear Sir or Madam,

We hereby confirm that we are working in accordance with Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), which came into force on June 1, 2007.

We would like to inform you that we are working in accordance with Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), which came into force on June 1, 2007.

The organization responsible for the REACH regulation, ECHA, regularly publishes the so-called "SVHC" candidate lists containing substances that have already been defined as hazardous.

After reviewing our supply chain, we can confirm that our products and their packaging currently do not contain any substances above 0.1% by weight that are currently included in the "candidate list."

This also includes the new substances from June 25, 2025.

Please note that Article 33 of the REACH Regulation only requires information to be provided if the limit value of 0.1% by weight is exceeded. The aim is to avoid documentary work and declarations of conformity. This also makes sense because the SHVC candidate lists are revised three to four times a year.

Due to the commitments made by our suppliers to comply with the REACH Regulation, you can assume that the limit values will be complied with even in the event of new revisions to the SVHC candidate lists if you do not receive any notification from us.

If the limit values are exceeded, we will inform you in accordance with the requirements of the REACH Regulation.

Best regards,

Thomas Duft
